

## MAXIMISE AWARENESS OF YOUR COMPANY WITH A SUCCESSFUL INTERNET PRESENCE

### Website design and development

Munro.tv Web Design offers design and management of websites, which will provide information about your company, products and contact details.

Getting a website on the Internet is easy, immediate and not expensive.

### Website Re-Design

If you already have a website but feel it is in need of updating from either a graphical or content perspective I can provide this service for you. Websites that are 2+ years old are most likely in need of updating. I can help you by designing a fresh new look and update the content so that it better reflects your business today.

#### **What is an Information Web site?**

An Information website consists of a combination of text and graphics providing your business with a successful Internet presence.

#### **Generate Sale Leads**

Your website provides all the information potential clients require in a crisp, clean and easy-to-view manner. Visitors can then send you an instant message or contact you directly.

#### **Unlimited Pages with all Web Sites**

Your website can be built up of one or more pages to effectively describe your services, products and business ethos. An effective web site advertises your business and expands your market by allowing you to target new clients in a wider geographical area.

### Website Design package includes:

- Required completely bespoke (not from template) pages of content
- 1 year of highest quality UK based hosting and .co.uk, .com, .net or .org domain name
- 1 month free submission to leading portals and search engines
- Any images from my library, and/or we can use any pictures of yours that you want on the site
- Full consultation with you to ensure that you are involved with the design and are completely satisfied
- Every website is individually designed for each client, no templates are used

**- COMPLETE DESIGN**  
**- SEARCH ENGINE OPTIMISED**  
**- TECHNICAL SUPPORT**

You receive a personal consultancy service to ensure that your website includes the information that your customers are looking for. I will work with you for as long as required to ensure that your website gets you a full return on your investment. My prices start at only £300.00 and I provide free consultation and no obligation quotations. Please contact me for further information.

### Branding

Gone are the days when business took place out of goodwill and word of mouth. Define your business identity today!

- Logo design.
- Letter headed paper
- Fax
- Business cards
- Leaflets and brochures
